Rebuilt Organs at Bargain Prices

Good Reliable Organs for \$19, \$25, \$30, \$35, \$40.

In the course of our large business in Pianos and Player Pianos we take in exchange as part payment a great many good Organs. These instruments have been used, but are in good condition, and are splendid values.

Must be sold quickly to make room for a carload of the famous Kimball Organs.

You know there are some parts of most everything that last years after other parts become worn. This is particularly true of organs.

We take out every worn part in the instru-

ment, replace it with a new, tested part, and when the organ leaves our repair shop, so far

as playing quality goes, it is as good as new. However, we do not have to buy and

finish the wood for the expansion cases, and in this way we are enabled to sell these Rebuilt

Organs at a very low price, as compared with their value as musical instruments.

Oak case, looks like new, in first \$39 class condition and a fine bargain

Oak case, Piano Model-this is in as good condition as new, in fact you could not tell it from a new one

\$1 A WEEK PAYS FOR IT.

Don't Delay

If you do the very Organ you want may be sold. Come and select yours We arrange terms to sult you.
